

DUAL CyberTech Defence

CyberTech Defence provides comprehensive, tailored coverage for technology companies.

In today's unpredictable market, tech companies face significant risks. A single cyberattack or professional error can lead to cancelled contracts, lost revenue, reputational damage, and even loss of market share. These impacts can be extensive, creating serious financial pressure on companies.

Why CyberTech Defence

DUAL's CyberTech Defence offers a comprehensive insurance solution for technology companies, combining cyber with technology errors & omissions coverage.

This all-in-one policy is designed to address potential coverage gaps and protect the insured's business reputation and financial stability, even in the event of unexpected incidents.

Target classes:

Technology companies such as:

- Office IT Hardware Sales / Value Added Resellers
- Consultancy & advisory
- Software Resellers / Value Added Resellers (excl. IT / Network Security)
- Software as a Service (SaaS)
- Bespoke Software Developers
- Mobile Application Developers
- Infrastructure as a Service (IaaS) / Platform as a Service (PaaS)

CyberTech highlights

- **Expanded Coverage** for any claim arising from **Technology Services** including **Breach of Contract** or **Civil Liability**.
- **No exclusions for delays or failure to deliver**, provides robust support for technology companies.
- **Intellectual Property Coverage:** offers protection against claims of software copyright infringement.
- **Extensions for irrecoverable fees and compensation for attendance at court.**
- Broad coverage for **Business interruption** and **recovery costs** due to a cyber event.
